

*Wyoma Smood*

1943-1983

Star Valley High School  
Class of 1943

40-Year Class Reunion

Star Valley Senior Citizen Center

Afton, Wyoming

June 25, 1983

*Joyce (Brown) Barrus*

After graduation, we took the biggest step in our lives, that of marriage. I felt I'd had enough school to last a lifetime. I married Grant M. Barrus June 24, 1943 in the Salt Lake Temple. Grant purchased his father's small farm, and later purchased a dry farm and some meadow land. To supplement farm income, Grant purchased a hunting camp in 1962, and became a big game outfitter. This has been a real rewarding experience. We've met people from all over the United States. We have made some lifelong friendships. We now own *Grant's Place*, a small shopping mall in Afton.

We have five beautiful children: Jerald Grant, Mark Brown, Kristene, Marie, and Tracy Allen. Jerald graduated from high school and attended two quarters of college (to please his parents). He is the outdoor type, and loves all types of animals. He worked for the U.S. Forest Service for many years. He works now for Hoback Realty on heavy equipment. He married Barbara Aullman and they have five children.

Mark graduated from high school and attended one year at Utah Technical College at Provo, Utah in auto mechanics. He operated service stations in the Portland, Oregon area for several years. He has the *Southern Comfort Band*, that plays for dances. He plays guitar and sings very well. He now owns and operates the Elkhorn Family Restaurant in Afton. He married Linda Rich and they have five children.

Kristene graduated from high school and attended Ricks College and graduated from Brigham Young University in elementary education. She taught school at Randolph, Utah. She married Elton Glade Hatch and they have five daughters.

Marie graduated from high school and attended Ricks College one year. She married T. Deb Wolfley, who is now the Lincoln County Sheriff. They have four children.

Tracy attended high school. He graduated from heavy equipment school in Portland, Oregon. He married Kristi Wills and they have two sons.

We have always been active in the LDS Church. Grant was in the Elders quorum presidency, one of the seven presidents of Seventy, stake missionary, scoutmaster, explorer advisor, Sunday School teacher, home teacher, finance chairman for Fairview Ward building fund. I have been in the Primary presidency three times, M.I.A. president, M.I.A., Primary, Sunday School teacher, stake Relief Society spiritual living leader, ward spiritual living leader, ward organist, Relief Society organist for 25 years, and accompanist for many people. At present I am ward Relief Society president.

We have always lived in Fairview. We built a new home in 1969, which we enjoy very much. Our travels have been very limited. I attended the Hill Cumorah Pageant in New York, and have visited California, the Canadian Rockies, and Hawaii. When Grant decides to go, I'll know where to go. To you, my fellow classmates, we extend our best wishes and gratitude for your friendship.

*Joyce's Address - Rt. 1, Afton, Wyo. 83110*

*Frank Ernest Brog*

At mid-year as a senior, with adequate credits, I left Sta Va Hi to work at the Osmond Swiss Cheese factory. Three years later Ruth Nield consented to be my wife. We were married in the "new" Idaho Falls L.D.S. Temple on March

29, 1946. We have two daughters and two sons. Freida, our eldest, was recently chosen as Young Mother Representative for Wyoming and competed at the national level in New York. She is married to Robert Child. They live in Afton and have five children. Valerie, our second daughter, graduated from Star Valley High as an honor student. She is married to Randy Roberts, and they have one son. They live at Preston, Idaho.

Our two sons, Lance and Shane, are unmarried. Lance served an L.D.S. mission in the New England States. He is employed locally and we see him almost daily. Shane is employed by a C.P.A. firm in Price, Utah.

My academic education since high school has been a 2½-year correspondence course from International Correspondence Schools at Scranton, Pennsylvania, in business administration, and two accounting courses taught at our high school in Afton. I am presently completing a correspondence course in credit and financial analysis. This course is given by Dun & Bradstreet's Business Education Division and the Continuing Education Department of the National Association of Accountants. Ruth and I have completed the Dale Carnegie course together.

We spent 26 years working for the Star Valley Swiss Cheese Co. I was general manager at this dairymen's cooperative for 16 years. Ruth managed the retail sales room for some time. Since 1972 I have been employed by Caribou Four Corners, Inc. as credit manager.

We built our home on "Temple Bench" in Afton in 1968. Our address is Swift Creek Canyon Road, Afton, Wyoming 83110.

We have been active in the L.D.S. Church since our marriage. My callings include home teaching, Teachers quorum advisor, Y.M.M.I.A. superintendent, Sunday School presidency, and stake mission president. My present duties are stake auditor and second counselor in the High Priest quorum presidency.

Fishing the Salt and Snake Rivers from a boat and hunting elk and deer satisfy my sporting desires.

President Doyle Child, President Larry Call and I ran from Afton to beyond Thayne (16 miles) preparing for the marathon. We never competed in the big run. Twenty-six miles was far too far!! That was in 1978.

*Joyce (Roberts) Brown*

After high school graduation, I worked as secretary in the Farmers Home Administration office in Afton for a number of years.

I married Reed Brown in the Salt Lake L.D.S. Temple in December, 1944.

We have three children. Lynette is now living in San Antonio, Texas, where her husband is a major in the Army. Kent is now practicing dentistry in Afton and Evanston after completing a mission in Pennsylvania and graduating from Brigham Young University and Creighton University in Omaha. JoAnne is living in Laramie while her husband attends the University of Wyoming. We have seven grandchildren.

I worked as secretary and bookkeeper in the school district office in Afton for many years. I graduated from Utah State University in 1975 and have been teaching in the Afton Elementary School the past eight years.

We purchased a ranch in Fairview in 1955 and lived there until January of this year when we moved into our new home in Afton.

I have been active in the church, having fulfilled positions in the various auxiliaries.

*Gayle (Jensen) Burton*

I moved to Salt Lake City, Utah after graduation and lived with Nola Weber. We went to work for Mountain States Telephone Co. as long distance operators.

I was active in the L.D.S. Church. On Nov. 1, 1944 I went to the Salt Lake Temple with Nola Weber and received my endowments.

I was married in the Salt Lake Temple on Feb. 6, 1945 to Lynn Rainey Burton of Etna, Wyo. Lynn was serving in the U.S. Marine Corps. In March I went to Ridgeland, S. C. Lynn was discharged from the service in 1945.

In November, 1945 we went to live with Lynn's syster and family in North Hollywood, Calif. Lynn began working for the Pacific Telephone Co. in December.

Housing was scarce and expensive, so it was necessary for us to live with Lynn's sister for six months. We finally rented a room with kitchen privileges and got out on our own. We lived in North Hollywood for seven years and were active in the North Hollywood Ward. While there we filled a stake mission.

I worked in a dime store and later for Pacific Telephone to help acquire the down payment for our first home in Northridge, Calif. We were in the Reseda Ward, which was later divided and we were moved to the Northridge Ward.

In October, 1955 Lynn transferred to Ventura, Calif. with the phone company and we lived in an apartment for the first two years.

Our first adopted child, Hal Jensen Burton, was born in June, 1957. Hal has filled a mission for the Mormon Church and has been married in the temple. He and his wife, Audrey Johnston, have three children. Hal is an engineer for Overhead Fire Protection Co. in Reno, Nev.

Our second son, Brad Jensen Burton, was born in October, 1958. Brad lives in Ventura and is very talented in music. He is a professional musician and also shop foreman of Freedom Designs, a shop making custom equipment for the handicapped.

In 1959 we bought a lot in the foothills of East Ventura and built a lovely home. We lived there for 18 years.

Our daughter Tamra was born in May, 1963. She is talented in music, plays the piano well and has a beautiful singing voice. She is an accomplished horsewoman and trains our Arabian horses for show.

In April, 1977, we took a trip to Northern California and bought 20 acres of virgin land in the foothills of Yuba County. Lynn transferred to Yuba City. We moved a mobile home on the property and began developing the land. we raise registered Arabian show horses and have nine head.

Lynn retired from Pacific Telephone Co. in June, 1982 with 37½ years of service. He now spends his time working on our ranch. I work as a registered nurses aid, part time, in a private home in Yuba City.

We are active in the Loma Rica Branch of the L.D.S. Church and I am serving as the Relief Society president. Lynn serves as the branch records clerk.

We really love living in the country. We live 16 miles from Marysville. Our address: Lynn & Gayle Burton  
5829 Marysville Road  
Browns Valley, Calif. 95918  
Phone 916-742-6569

If any of you are in our area please come visit or give us a call.

*Jessie (Newswander) Call*

I can't believe it has been 40 years since we graduated! Where has the time gone?? I feel like Rip Van Winkle.

In looking back, though, it has been an interesting 40 years. Not exciting, but interesting.

After graduating, Jean and I attended the University of Wyoming for awhile. Then I married the "boy next door," Lee R. Call, upon his return from overseas duty in North Africa, Sicily and Italy. We were married in the Salt Lake Temple, Dec. 21, 1943.

We then spent a year and a half in Missouri where Lee was an Air Force pilot instructor.

At the end of the war we returned to Afton where we eventually became owners of the Star Valley Independent, the local newspaper.

We have four sons, one daughter, and four grandchildren. Our three oldest children are married, and the two youngest are still college students. Miraculously, all of our sons became Eagle Scouts and three served L.D.S. missions.

I worked part-time in the Star Valley Independent on the electronic typesetter and wrote a "Cook of the Week" column, which was later compiled into a cookbook and published.

We sold the newspaper a little over four years ago, and now Lee works for our son at Western Wyoming Printing, which we sold to him.

I have always considered it my good fortune to live in a place like Star Valley. Throughout the years Lee and I and our family have enjoyed skiing, hiking, snowmobiling and lots of other outdoor activities.

By the way, Jean and I are still the very best of friends.

*R. L. Call*

After World War II I returned home from overseas and married Leona Rice of Port Orchard, Wash. We have four children (three are now married) and five grandchildren.

We lived in Afton until 1948, then moved to California where I joined the newly formed company, Sav On Drugs. My first job was a receiving clerk. Working my way through the store organization, I became a store manager of

the largest and most up-to-date drug store in the country at the time, located in Lakewood, Calif. After a number of years as a store manager, I was promoted to a supervisor of 12 stores. As the company grew, I was made vice president, executive vice president, president, and chairman of the board. During the period 1948 to 1983 I was instrumental in the growth of the company from 3 to 183 stores. The last 15 years, as executive vice president, president, and chairman of the board, I helped run the operations of the company with sales in excess of \$800 million.

January 1, 1983, I retired from the Sav On Drug Co. to pursue other business interests. Currently I am with the Delta Group of Newport Beach, Calif., a consulting firm. I am also serving on the advisory board of the National Bank of Southern California. I have served on various boards, including Sav On Drugs, Jewel Companies, past president of Lakewood Business Association, and in various positions in the L.D.S. Church.

Leona and I and our youngest son Gary (19) live in Huntington Harbor, Huntington Beach, Calif.

*R. L.'s Address - 3802 Seascape Dr., Huntington Beach, Calif. 92649*

*Jean (Newswander) Canning*

After graduating from Star Valley High School I went to the University of Wyoming for one winter with Jessie. This was during the war and everyone felt a real urgency to get on with life and so we both quit college to get married. I married Bud Graham, who was a paratrooper in the service at that time. We went to North Carolina where he was training. When he was called overseas, I worked at the bank in Afton. As time went on we had three children: Steve, Bill, and Patty. I worked for the telephone company for several years and Bud had

the dry cleaning business. After ten years of marriage we divorced. Later he remarried and six years later I married Ben Canning. Ben taught high school in Afton. We had one son, Robert. After two years of marriage we divorced. (Looks bad for me). I continued to work for Mountain Bell and also continued my studies until I won a degree in elementary education.

In 1965 I started teaching school, first in junior high. I taught art, girl's P.E., reading, and social studies. Then after a few years I started teaching in the fourth grade. During the summers I went on to graduate school at Utah State and in 1982 I graduated with a master's degree in instructional technology. Now I am the library media specialist for the Star Valley School District. I go to all of the Star Valley elementary schools and work with all of the children. I love my work, and I think I love my life. All of my children are married and I have 11 grandchildren. So I have been busy. I travel all over during summer vacations. For a few years I was a teacher consultant for the Scholastic magazine, and was a guest at their conventions in New York City in 1979 and 1980. I continue to stay close to the L.D.S. Church.

*Mary Isabell (Crook) Cassity*

After graduation I went to Salt Lake City and lived there for 3½ years. While there I attended NYA School and lived at the Beehive House. I also worked at American Linen Supply Co. and attended night school at West High. I was ready to be placed at a bank in Salt Lake City when I received my mission call to the Eastern States with Pres. Roy W. Doxey as mission president. When I returned home I worked in Logan for a while and then came back to Star Valley where I met Neil W. Cassity and was married to him in Idaho Falls on June 21, 1950. We had four children: Barton, 1953; Joslyn, 1956; Todd, 1958; and Tim, 1959.

Barton graduated from SVHS. He worked in Oregon and Washington for three years. He then drove an 18-wheeler semi-truck for 1½ years and almost lost his life in a wreck near Kemmerer. He now lives in Star Valley and has a home there and is planning to be married in August, 1983.

Joslyn graduated from SVHS and received a scholarship to the University of Wyoming. She attended school there for 2½ years and at BYU-Hawaii campus for ½-year. She is married to Curtis Allred and has worked for the Bridger-Teton and Targhee National Forests for four years. They are living in Idaho Falls.

Todd graduated from SVHS and then lived and worked in Laramie for several months until he was called to the England London South Mission. He worked on the new Star Valley Hospital until it was completed, and then worked at Allied Chemical in Rock Springs. He is now working at Mountain Fuel in Rock Springs. He is married to Judy Ann Miller, and they are expecting a baby as this is written.

Tim graduated from SVHS. He worked in California for several months before going to the Scotland Glasgow Mission. He has been working in Logan, Utah and attending Utah State University. He is married to Karen Ann Henrie, and they are living and working in Star Valley before returning to school this fall.

Neil is a dairy farmer and has been a clerk at Gephart Stores in Afton for 23 years. He has served as a stake missionary and has been ward clerk and finance clerk for many years in the Osmond Ward.

I have been active in 4-H and DUP. I have worked in all the organizations of the church including president of the Primary for almost 10 years. I have worked at the Star Valley Hospital for nine years as a housekeeper and part-time cook. I enjoy very much being around people and trying to help and comfort them. I love to knit and crochet and make things for my family and others. I am also a community correspondent for the Star Valley Independent.

*Mary Beth (Findlay) Chadwick*

I was one of several who married during our senior year in high school,

because of the pressure of World War II. This very much determined the course of my life after high school graduation. (I married Don L. Chadwick on Oct. 13, 1942 in the Logan Temple). We lived on our farm in Osmond until Don was called into the service. While he was gone I worked in the Star Valley Drug Store. I then spent time in Texas and Oregon to be with him before his overseas assignments. When Don returned we lived in Osmond for several years, moving to Logan, Utah during two school years for him to finish his college degree. We loved Logan and eventually moved there in 1962. After Don received his doctor's degree from Utah State University we moved to Ogden, Utah where he began teaching at Weber State College. We bought a house with a small orchard in North Ogden, and this is where our home has been for the past 18 years.

Our five children were born in Afton before we left Star Valley. We have three sons and two daughters. Betty, an accomplished pianist, lives in Plain City. John graduated from Weber State, lives in Roy and works for Albion Laboratories. David graduated from Weber State, lived in North Ogden and works for Beneficial Life Insurance in Salt Lake City. Janis is a beautician and lives in Harrisville. Wayne is in his third year at Weber State and works for a building contractor.

Each of our sons are Eagle Scouts and returned missionaries. They are all married now and have given us 15 grandchildren. We are blessed to have them all live close by to fill our lives with visits, phone calls and lots of love.

The past 40 years I've been active in the L.D.S. Church, serving in a variety of assignments. The most fulfilling and rewarding of these assignments were ward Relief Society president, stake Relief Society homemaking counselor for six years and three years as a temple worker. I've also been active in the community. I belong to the Utah Association of Women, for which I am very proud.

My talents and interests over the years have been teaching piano, dancing, singing in musical groups, aerobics, gardening, knitting, crocheting, cooking, entertaining and cake decorating.

Don and I enjoy traveling, camping and working in our big yard. He's a botanist, so we are always trying new things.

*Beth (McCombs) Clapp*

Shortly after graduation, I moved to Idaho Falls, and went to work for a dentist.

Before the end of World War II, I went to work at Chesbro Music. There I met my future husband, John Clapp, who began to work in shipping after returning from the war. He is still there, now as book department manager.

We have three children, two sons and a daughter. Our oldest son, Dennis, died at the age of 4½ years. Our daughter, Roxana, and her family live in Idaho Falls. Our younger son, Lonnie, is in the Air Force. He and his family are currently living at Grand Forks AFB in North Dakota. We have eight grandchildren.

After our children were in school, I went back to work for the dentist I had worked for previously. I worked for him 15 years, then we both retired.

Now I spend my time keeping house, reading, crocheting, camping in summer, and spoiling my grandchildren.

*Beth's Address - 919 Blaine Ave., Idaho Falls, Idaho 83402*

*Arlean (Schwab) Clinger*

It doesn't seem that 40 years have passed since we graduated. Darwin and I are parents to five sons and three daughters. Our girls came 8½ years after our boys, and we have enjoyed them so much. We also have 31 grandchildren.

Darwin has been in the construction business since our boys were little. We have lived in Page, Ariz., Lewiston, Idaho, and Coulee Dam, Wash., while working on construction on dams. We moved to Rigby, then Idaho Falls in 1974 and I have lived here since, while Darwin has had to work away from home most of the time in order to have work. At present he is in Kodiak, Alaska. We haven't had to move very often, which has made it much nicer for our children. I still have one daughter at home; Sarah is a junior in high school.

I started to do alterations and dressmaking 28 years ago and have been busy every place I have been. Every time we moved there were old friends who got me going again. Sometimes I would rather have quit, but couldn't say no. I have loved it and made many nice friends everywhere we have been. At present I have been sewing for city, state and even national pageant contestants.

We live on a nice acreage just two miles north of Idaho Falls. It is close to Star Valley and home.

### *Ruby (Bagley) Cone*

I left Star Valley the winter of 1943-44 and went to Pocatello, Idaho. I became a telegraph operator on the Union Pacific Railroad. I lived at Opal, Wyo. and Weiser, Idaho. I came to Salt Lake City in 1945 and worked as a bookkeeper for many years off and on.

I married William L. Cone in 1946. We have three boys and three girls (all red-headed). Four are married and two still live at home. We have eight grandchildren.

I have worked in the L.D.S. Church Genealogy Extraction Program for five years, doing German films. I am the supervisor of our group, and it is most rewarding.

Life has been wonderful. I wouldn't have missed a minute of it.

### *The "Not Obituary" of Preston D. Conley*

Immediately after graduation, I left Star Valley for adventures and I found them.

I was in the Air Force until 1967, when I retired as a Senior Master Sergeant in the Photographic Reconnaissance Area (no service will allow you to become an officer if you are color blind). During my service career, which included the Army and Air Force, I had overseas assignments in Japan, Germany, Okinawa, England and Puerto Rico. In the States, assignments were in the Northeast, Mid and Deep South, Mountain and Pacific States. (I've been in all states except Montana and North Dakota, and in three of the four Aftons). I

have also visited Korea, Taiwan, the Philippines, France, Holland, Panama, the Azores, Mexico and Canada. We must also include the ancestral homelands of Ireland, England, Scotland, and Denmark.

While in Denver in 1960, I married the former Rose Ann Goranflo, who is from Waynoka, a town in northwestern Oklahoma. At the time of our marriage she was the art director for the Department of TV Training at Lowry AFB. We then honeymooned in Frankfurt, Germany for three years. In Massachusetts in 1966 we were blessed with identical twin daughters, Melinda and Vanessa.

We all now live a rather stationary life in the San Fernando Valley northwest of Los Angeles. (Reseda — I'm in the book). You know, the standard one husband, one wife, two kids, one dog, cat, shaggy lawn, with fruit trees, white fence and mortgage.

After retirement from the Air Force I then went to work for an aircraft camera company as a field service engineer in Idaho and Okinawa. Since then I have been associated with the photo industries here as a salesman, engineer, and service technician. I am currently laid up (temporarily, I hope) with osteoarthritis.

Since 1943, I have put on over 60 lbs. and 6 inches. Have decided to keep my mousey gray hair and most of my teeth. I also have as memory aids, three yearbooks, H.S. class ring, many photographs, medals, ribbons, citations, scrolls and knick-knacks. (So stop counting! I know you have grandkids older than my own kids are. I married at 35, became a father at 41, and my current age is no secret).

The wife and I plan on doing some traveling when the girls are out of school. We've been in one place for so long it's boring.

*Preston's Address - 18649 Calvert, Reseda, Calif. 91335*

*Ruth (Wright) Coy*

After graduating I worked on defense in Utah for a few months, then returned to Star Valley where I married Ralph Coy in December, 1946. We have one daughter, Marilyn, who is married and living in Kaysville, Utah. We have one granddaughter.

We lived in Thayne until 1951, then moved to Salmon, Idaho for five years. We moved to Idaho Falls, Idaho in 1956, where we now reside.

We owned a business where I worked as a bookkeeper for 17 years. The last 10 years I have been a bookkeeper for other businesses, retiring in September, 1982.

We are now spending our winters in St. George, Utah and our summers in Idaho Falls and Alpine, Wyo.

*Ruth's Address - Rt. 1 Box 416, Idaho Falls, Idaho 83401*

*Ened (Crook) Crossley*

I'm real happy to report a little of my life since graduation from Star Valley High School back in 1943. I'm looking forward to a fun 40th class reunion—even though I can't believe it's been that long. The very next morning after graduation, I left for a business school in Salt Lake City. As World War II was on, I struggled with having enough money to stay there, and was forced to get a job in an office, running an electric bookkeeping machine. This was interrupted for awhile for my marriage to Wendell Crossley. As he was serving Uncle Sam in the Army, I followed him to Tennessee, and then later on to Virginia and then Maryland, prior to his going overseas for 14 months.

As the war ended and Wendell finished a trade school in Salt Lake City, we decided to move back to Star Valley, settling in Smoot. We have raised four children. Carolyn, our oldest, is the local postmaster and runs and owns the Smoot Store. She and her husband, Dennis Walton, have three children and live close to us. Carolyn was recently chosen as an "Outstanding Young Woman of America."

Our two boys, Stanley and Ronell, both served honorable L.D.S. missions to Australia and Brazil. Stanley graduated from the University of Wyoming, and he and his wife Linda have four children and live in Basin, Wyo. Stanley is a supervisor for Farmers Home Administration. Ronell graduated from BYU and he and his wife Ricky Lynn have two children and are living in Provo. He is working as a loan officer at a loan and finance company. Our youngest daughter, Janalee, lives in Spanish Fork, Utah and drives to Orem to work. She isn't married yet, but is hopeful. She graduated from Ricks College.

We have been satisfied with our life in Star Valley and have been very busy. I've been the correspondent for Smoot for the Star Valley Independent for

over 21 years. Among the many church jobs I've held, I enjoyed being the Girls' Program secretary for the Mutual on the stake board for 24 years, along with the ward secretary for 30 years.

Wendell has served in many capacities including eight years in the Smoot Ward bishopric. He has been employed with the U.S. Forest Service for the past 25 years. I have worked for Caribou Four Corners, Inc. at Afton, as a key punch operator, for the past 14 years, and it's been a fun and rewarding job.

Life has been good to us, generally speaking, and we have some real special friends here in the valley. Some of the choicest experiences have been here, and we're proud of our heritage, our children and the nine grandchildren. We have fond memories of SVHS and most of all, for you fellow classmates who started us off, way back then . . .

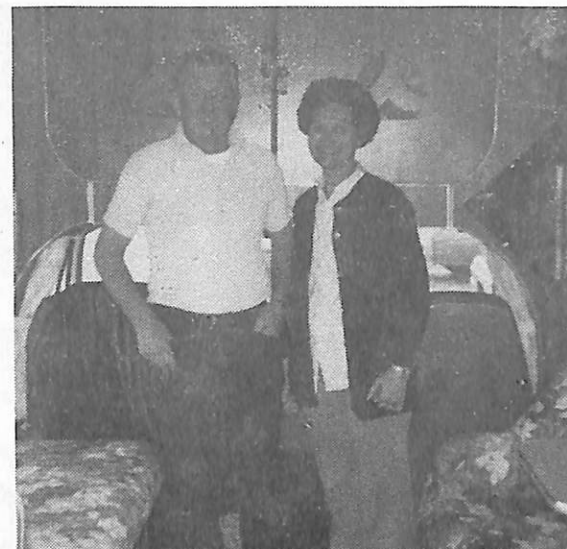

### *Lydia (Hokanson) Dabel*

My life hasn't been very exciting in any sense of the word, but I have enjoyed it. I have spent all my life except for one year in Star Valley. We love it here.

I was married to Clinton Merritt in 1945. We were blessed with three children before he was killed in 1953.

In 1957 I married Vernon Dabel, who had two children. We combined our children and added two of our own. They are all married except our youngest, who is on an L.D.S. mission in Hawaii. We are leaving June 26 to go and get her.

Presently I am librarian at the Afton Branch Library here in Afton. I love my work and my family. We have 18 grandchildren, plus seven great-grandchildren. We may not have riches, but we have a rich supply of happiness to remember.

### *Creva (Stumpp) Davis*

I married Vaughn E. Davis, Navy pilot, June 1, 1945 in Falmouth, Mass. We have lived in Ogden, Utah since about 1947. We have three daughters and 11 grandchildren, plus five step-grandchildren.

We like to camp out in our motor home and enjoy golfing and swimming together. I also enjoy sewing and walking, and working in the church. We are part-owners of *Crown Body Shop* in Ogden.

We love and appreciate our daughters, sons-in-law and grandchildren and get together often as a family.

*Creva's Address - 2304 Pierce Ave., Ogden, Utah 84401*

*Gleno W. Draney*

Yes, I agree, it is time we were holding a class reunion. We are looking forward to it. I'm not sure I know what you want, but here is a synopsis of what I've done since I left good old Star Valley High.

I graduated at the half, as many did, and went to Salt Lake City to work. In the spring I then worked on dad's ranch until fall. Then Morris Haderlie and I decided it was time we joined the service. We both had farm deferments, but with everyone else going we wanted to go, too, so we went to Salt Lake City and joined the Navy. At least I did; Morris was turned down because of a metal plate he had in his leg. I was in the Navy for about two years: Basic training in San Diego, Calif.; school for four months in Gulf Port, Miss.; Treasure Island, Calif. for more schooling; then assigned to a new destroyer and spent the rest of the time helping put new ships in commission.

When the war was over I was discharged out of Bremerton, Wash. Then Imri and I went to college in Logan. We were waiting for Imri to get an L.D.S. mission call, but while we were home for Christmas I received my call instead. I served in the New England Mission with S. Dilworth Young as my mission president, and my first companion was Andy Kimball, President Kimball's son, so I got off for a good start.

After I got home I found a good-looking gal from Thayne (ReNee Pendleton) and within a year or so we were married in the Idaho Falls Temple. Since then we have been fortunate to have nine children, six daughters and three sons (Glenae, Zan, Lesa, Olin, Luetta, Jana, Nicki, Lenna, and Jarin). We are very proud of them, as most parents are.

For an occupation I started with Boyd Barrus laying floor coverings and have been in that and furniture selling ever since. I bought part of dad's ranch,

and I and my two oldest sons milk about 50 head of cows, along with the floor covering work. I've also driven a school bus for about 10 years.

I'm always interested in what friends have done in the church, so this is what I have done: Scoutmaster, 1 year; Sunday School teacher, 5 years; Stake Sunday School board, 3 years; Sunday School superintendent, 7½ years; stake mission, 2½ years; first counselor in bishopric, 8 years (Auburn); Thayne Wyoming Stake High Council, 5 years so far.

My family I really enjoy - they are first.  
My church work does me a lot of good — that's second.  
Just having fun - is third.

*Gleno's Address - Auburn, Wyo. 83111*

*Elaine (King) Ferrin*

I married Mick Hardman Dec. 20, 1947, lived with him and raised four children until he died Aug. 2, 1973 from cancer. We lived in North Logan, Utah until we moved to Rupert, Idaho on a farm homestead 12 miles north of Rupert. I stayed on in Twin Falls, Idaho after Mick's death for three years, then moved to Preston, Idaho. I lived there a year, then moved to Ogden, Utah, and that's where I met Eldon Ferrin, and we've been married four years. He has six children, and between my four and his six, we have 24 grandchildren (I have 6; Eldon has 18).

I plan on attending the reunion so will see you there.

*Elaine's Address - 510 Grant Ave., Ogden, Utah 84404*

### *Lester Fluckiger*

Following graduation I spent three years in the U.S. Navy in the Pacific theater of war. I returned home in May of 1946 and went to work for the U.S. Forest Service three days later.

That fall I entered Utah State University in the School of Forestry, and graduated in 1950 with a degree in range management. In September of 1950 I married Donna Shannon in Pinedale, Wyo.

Following a year of odd jobs, wondering, and waiting, I received a permanent appointment with the U.S. Forest Service on the Bridger National Forest at Kemmerer, Wyo. In March of 1952 I was assigned as district ranger at Baker, Nev. on the Nevada Forest.

In July, 1956 I was promoted and transferred to Mackay, Idaho on the Challis Forest. I worked as district ranger there until 1960 when I was transferred back to Kemmerer as staff officer in range, wildlife and watershed management in the supervisor's office.

During my stay in Kemmerer we were able to do watershed rehabilitation work in Swift Creek, Willow Creek, and the head of Salt River. We were also successful in closing most of the sheep driveway on the Wyoming Division of the forest.

In 1965 I moved to the Regional Office in Ogden, Utah. There I worked in watershed management. Later I moved to range improvements, then range studies, range administrations, and in 1980 I retired as assistant director of range management for the Intermountain Region. This region includes Idaho, Utah, Nevada, and western Wyoming.

One of the highlights of my 34 year and 10 month career with the Forest Service was being chosen as one of five people to head up the Forest Range Environmental Study. In this study all of the range lands in the contiguous 48 states were inventoried for the first time. It has been published and is used by colleges and universities all over the United States.

Donna and I have a daughter, Shannon, and a son, David, and four grandchildren. We are presently living at Cora, Wyo., in a home built by our own hands, and enjoying life very much.

Donna is a porcelain artist and also does some oil painting.

### *Hubert B. Fluckiger*

December, 1943 - Enlisted in U. S. Navy Reserve. Served as hospital corpsman at the U.S. Naval Hospital, San Diego, Calif.

May, 1946 - Discharged with rating of pharmacists mate 2nd class.

November, 1946 to May, 1949 - Missionary to the Samoan Island.

August, 1949 - Married Ethel Jones in the Salt Lake Temple. Children: Margene, Elaine and Lynnae, Mark H.

June, 1949 to May, 1953 - Bachelor's degree from Brigham Young University, Provo, Utah.

September, 1953 to August, 1957 - Master's degree, Utah State University, Logan, Utah.

September, 1953 to January, 1975 - Worked as a research scientist at Mead Johnson & Co., a pharmaceutical firm in Evansville, Ind.

January, 1958 to October, 1963 - President of the South Indiana District, Indianapolis Indiana Mission - L.D.S. Church.

September, 1975 to present - Worked as quality control chemist for Albion Laboratories, Clearfield, Utah.

June, 1977 to July, 1981 - Bishop of the Layton 7th Ward, Layton Utah Stake.

*Hubert's Address - 398 Paul Ave., Layton, Utah 84041*

### *Kay Frome*

Mid-year (school) Dec. 27, 1942 I left Afton to go to college in Logan, Utah. In September, 1943 I entered the armed service, and was discharged May, 1946.

I started college at Ricks College in September, 1946, and graduated with the first four-year class in 1950. I was president of the senior class, but no high honors.

I married Faye Clark December, 1947. We have three daughters, living in Nevada, Montana, and New York. We have two grandchildren.

I was in the automobile business from 1950 thru 1978. I sold out in 1978 with plans of doing many things of wonder and wishing, but found out that my income would not let me live in the manner to which I was accustomed. So now I play around in the winter months and work for the U.S.D.A. in the summer. I enjoy this arrangement very much, only this past winter proved to be very long, and I have been looking forward to going back to work.

*Betty (Call) Gale*

I married Homer Gale 34 years ago, and we have lived in Oregon since that time. We lived in Portland 27 years, and the last six years we have lived in Gladstone.

*We were in the electric sign business until two years ago, when we sold the company and retired.*

*Our only daughter, Barbara, died in 1977.*

I guess our only hobby has been fishing, which we have enjoyed over the years, and I might add, caught many, many trout. At present we have a motor home and boat. We fish lakes mostly. Sometimes in salmon season we fish the Willamette River, which is only a short way from where we live.

We enjoy our home very much and do a lot of work in our yard, which we really enjoy.

Last winter we spent two months in southern California, and I believe it is going to be a habit every year.

We live in a nice neighborhood in the suburbs and have many nice friends. We have lots of rain here, which makes it a beautiful, green state.

*Betty's Address - 16465 S.E. Devonshire Dr., Gladstone, Ore. 97027*

*Ada Mae (Rodgers) Gardner*

I'm married to Bruce Low Gardner, and we own the Forest Dell Guest Ranch in Smoot, Wyo. We have been in the outfitting and guiding business for 34 years and have people from all over the world as guests at our ranch. We sold our hunting camp, but will operate out of our ranch for a couple more years. I also do a catering business in my spare time.

We have four children, all grown, two boys both living in the valley having their own businesses, and two girls, one living in Douglas, Wyo. where she works for the Wyoming Highway Department, and our youngest, who is a junior in college majoring in interior design. We have seven grandchildren, four boys and three girls ranging in age from 4 to 12.

We are gradually retiring and plan to leave our home in Star Valley for the winters and just do whatever grabs our fancy!

*Norma June (Clark) Gee*

Married: Raymond W. Gee, Salt Lake Attorney.

Children: Barbara - student at University of Utah; BYU-Israel Study Abroad; mission, Philadelphia, PA.

Karen - B.S. University of Utah; elementary education teacher.

Stephen - Student University of Utah; mission, Washington, D.C.

Linda - Student University of Utah, BYU-Hawaii.

Diane - Graduate Skyline High School, 1983.

Carla - Graduate Churchill Jr. High, 1983.

Church Service: Mission to Central States; Relief Society president and counselor; Young Women's president and counselor; Primary second counselor; teacher in above organizations; coach of ward ball teams; Stake Sunday School board; presently serving as Salt Lake Olympus Stake sports director.

Employment: Lower Valley Power and Light, Inc., Freedom, Wyo.; First National Bank, Salt Lake City, Utah; First Security Bank of Utah, Salt Lake City; University of Utah, president's office, Salt Lake City.

Education: Utah State Agricultural College, Logan, Utah; Brigham Young University, Provo, Utah; University of Utah, Salt Lake City, Utah.

Civic Service: American Mothers National Committee member, 1982; American Cancer Society worker; election judge, numerous elections.

*Norma June's Address - 3111 Majestic Drive, Salt Lake City, Utah 84117*

*Joyce (Allred) Hanks*

I graduated from L.D.S. Business College in Salt Lake City, then worked for two years at the County Extension Office in Afton. I taught school for a year at Teton High School at Driggs, Idaho where I met and married Clair Hanks of Tetonia, Idaho. We spent four years in Seattle, Wash., where he attended dental school, then two years in the Navy in San Diego, Calif. We have been in Pocatello, Idaho for 34 years.

At the present time, Clair has his dental office in the basement of our home, which is on an acreage where we raise quarter horses. We also race the horses on the chariot and the flat track. We have five children and 11 grandchildren. Our three boys are Eagle Scouts and have all served missions.

In 1982 Clair and I went to Thailand as a dental team to work with impoverished people. We had a great experience, and are planning to return this year.

*Joyce's Address - RR #1, Trail Creek Road, Pocatello, Idaho 83204*

*Keith B. Harmon*

On Jan. 4, 1944 I reported to Fort Logan, Colo. to start a 28-month stint in the Army Engineers. Two weeks later at Camp Swift, Texas I was wishing that I had let them make me 4-F, as they had wanted to when I had taken my physical before Christmas. They had found that I was color blind and had a large scar on my left arm that I carried since an accident I had when I was four years old.

I have said many times that I spent 28 months in the military, all in foreign countries and that I spent eight months on the island of Luzon waiting to get the right ship back to the U.S.A. I was in Texas, England, the mainland of Europe, and then 40 days on water, going from France through the Panama Canal, down to the Philippines. The Japanese gave up when they heard we were coming. I was discharged on May 3, 1946 at Ft. Douglas in Salt Lake City.

After spending the summer of '46 in Star Valley, I was called to serve a mission to Eastern Canada, a very choice and growing experience. It was during this time that I met so many wonderful people, of whom I still hold fond memories, and through my mission I met my future, wife, Louise LeBaron, a sister missionary from southern Alberta, Canada. Shortly after my return we were married for eternity in the Idaho Falls Temple, Nov. 27, 1948.

We started at the BYU in January of 1949. I studied agriculture and dairying, and before I had finished my degree I was offered a fine job involving both ends of the dairying business in Park City, Utah, then retail sales in Salt Lake City. While at the Y our first son was born, then in Park City our second son was born, and Sherri was added to our family while we were in Salt Lake City.

In 1955 I decided to complete my education and we moved back to Provo, where I graduated in 1956 with a certificate to be an elementary teacher.

I have taught 22 years of elementary and five years of special education in the Granite District. I have about three years until I can retire. It is a happy prospect!

We now have three sons and three daughters. Four of our children are married and are producing a bevy of grandchildren for us to love and spoil; in fact the 14th grandchild should be arriving about the time of this class reunion.

We are living in beautiful Highland, Utah. It reminds us a lot of Star Valley with its lovely green hay fields, cool canyons and peaceful surroundings. We have a small piece of ground that I can keep busy on, and still feel the thrill that comes from farming.

I have served in many church capacities, both stake and ward. At present, since my release from stake clerk, I am working as a resource assistant in the Genealogical Department at the BYU on an assigned basis, one of the most enjoyable jobs I have held. I have done quite a bit of genealogical research and hope to do more of it, as well as serve a mission with my wife, after I retire.

Looking forward to seeing all of you at the reunion.

*Kerma (Nield) Harmon*

Kerma went to Salt Lake City after graduating from Star Valley High School in 1943 and took a business course from Henager's Business School. She then went to Boise, Idaho and worked in the office of a hospital for a year. After World War II ended she returned to Afton and married Don Harmon from Fairview. They have four sons. Donnie, his wife Lana, and their children live in Lander, Wyo. where he works as a utilities superintendent. Jim served a four-year hitch in the Navy, then he and his wife, Tammy, moved back to Osmond. They have a baby daughter. Joe, his wife, Tess, and their three children also live at Osmond. Joe is a certified diesel equipment operator and Jim works for an oil well casing company based at Afton. Kip, the youngest son, served a mission in the Philippines and then attended college at Ricks last winter. Kerma and Don have 12 grandchildren and two great-grandchildren.

In the vocational lines, Don and Kerma have had considerable variety. Don freighted, drove truck, bought, sold and traded livestock for about 35 years. He has driven school bus for 17 years. He is watermaster for the Cottonwood sprinkler system. Don just completed a four-year term as Lincoln County Commissioner and plans to run again in two years. Always a farmer and politician, Don is also a qualified auctioneer.

Kerma and her mother owned and operated a children's clothing store in Afton for eight years at which time they sold out so Kerma could devote her time to raising boys. She started to work as a secretary for Caribou Four Corners, Inc. in Afton the year Kip started kindergarten and is still there.

Kerma and Don consider it their good fortune to live in Afton and are active in the Second Ward where Don serves as second counselor to Bp. Allen Lowe, and Kerma is ward librarian.

"It's been a mighty fine 40 years and so good to get acquainted again. Best regards to everyone."

*Lela (Johnson) Harrison*

After high school LaDell and I lived on the farm in Osmond until 1946, when he went in the service for one year. In 1951 we moved to Riverton, Wyo. and homesteaded 300 acres and bought another 476. We lived 25 miles from town, so we built a home in Riverton to make it easier for our children to go to school.

In the spring of 1957 LaDell was badly burned and spent nine months in the Veterans Hospital in Cheyenne. We had a lot of land leased, so I ran it, with the help of hired men. Our youngest daughter, Pam, was born that fall while LaDell was still in the hospital.

In 1964 the Bureau of Reclamation bought the homesteads back, because the land should never have been put under cultivation. In 1965 we moved to Roy, Utah where LaDell has worked at Hill Air Force Base as an electrician.

Before leaving Star Valley, I was a member of the MRS Club. Upon moving to Riverton, Wyo. I immediately joined the Federated Women's Club. I later served as president of that club. I was also state Religion Chairman two years for the Wyoming Federation Women's Club. I have also served as a Primary president, Relief Society second counselor, a visiting teacher, and a Sunday School teacher.

I have worked at various jobs during my married life. I was a licensed insurance agent with Mutual of Omaha in Wyoming. The last 11 years I was with ZCMI in Ogden. At this time I am not working. We have four children, KaDell, Wynn, Cindy, and Pam, and nine grandchildren.

*Lela's Address - 5765 So. 2625 West, Roy, Utah 84067*

*Neoma (Roos) Heap*

After graduation I moved to Ogden, Utah and worked for the U.S. Navy at Clearfield.

In August, 1943, during World War II, I married Lamont Heap of Thayne. He was home on leave from the Navy. I followed him to California, so spent time in San Francisco and the Los Angeles area.

We have five children: Dennis, Lael, Katherine (Mrs. Dick Dana), Blake and Shane. We have 12 grandchildren and three great-grandchildren.

Lamont's profession has been racing horses, which has taken us all over the United States and Canada.

Our home base was in Thayne. We owned and operated "Heap's Trading Post" for eight years, then sold it.

As a hobby I had a ceramic shop in my basement that turned out to be a thriving business (I loved it). We moved to Flagstaff, Ariz., where we co-owned "Sew Lovely Fabrics & Custom Drapery's." I was an interior decorator, taught all kinds of sewing classes, plus we had our own TV show on KOAJ-TV, "Let's Be Creative."

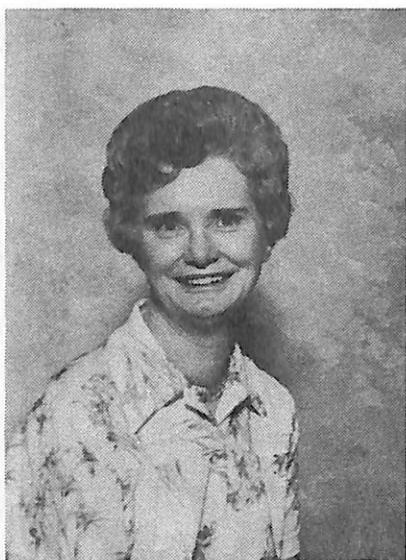

Lamont needed to be closer to the race tracks, so we moved to Phoenix, where we now reside, racing here in winter and going East in summers.

I designed and co-owned "Kiddie Komfies" (baby quilts in shape of animals, selling patterns internationally). I sold this.

I love beautiful things and am a creative person, so my hobbies take precedence. I get involved in many things—sewing, knitting, crocheting, quilts (made over 200), ceramics, oil painting (specialize in portraits). At present I am making heirloom porcelain dolls. I even like to lay brick and do carpentry work (I just added a room on our house).

After we moved to Phoenix, I got my real estate license. I work at it on a part-time basis.

I am an active LDS Church member.

*Rhea (Warren) Higley*

I will be known to my classmates of Star Valley High School as Rhea Warren. After graduating from high school I worked in a feed store in Afton for awhile, then went to Seattle, Wash. with a girl friend, Eva Lancaster, to look for work. We both worked in an aircraft factory. I worked here for over a year; I made \$1.00 an hour, which was good wages at that time.

In January, 1945 I received a telegram telling me that my father had been killed in a car accident. At that time I came back home. I had planned on going back to Seattle, but didn't because my mother was lonely and wanted me around closer. A few months later I started working in Idaho Falls, first at a dehydrating plant and later at the White Star Laundry. While working there a friend of mine, Rosy Lott, introduced me to her brother, Ira Glen Lott, better known as Ike. He had just come home from the service. Soon afterwards he asked me for a date. We went together for about six months and were married April 5, 1946. We bought a small farm east of Rigby and moved there. While we were living there our two boys, Wayne and Eldon, were born.

We moved to a larger farm in Mud Lake when Eldon was a year and a half old. After we had lived there a year we decided that we had gotten into a bad deal, so we took a loss and sold our cattle and everything and bought a home in Menan. Soon after we moved there Ike got a job getting out logs for a sawmill in Spencer. For three years in the summers we lived in tents and make-shift cabins, and in Menan in the winters. We then sold our home in Menan and bought a home in Spencer. At this time Crystal, Ike's niece, came to live with us for two years. Our two daughters, June and Ilene, were born in Spencer. With two boys and two girls our family seemed complete. We loved our children very much.

In May, 1963 Ike had a heart attack. He was in the hospital for eight days and laid up for two months. June was six and Ilene four years old at that time.

One Sunday on a cold day in January, 1964, we came home from church to find our house on fire. It burned to the ground and most everything with it, including my high school diploma and all of my yearbooks, so I can't even look back now and see who my classmates were. We had to start over again. In the spring of 1964 we bought an older home in Dubois. That fall Ilene started school and Wayne got married.

The next fall, in 1965, to supplement our income I got a job at Idaho Fresh Pak, a potato dehydrating plant in Lewisville. This was 40 miles from Dubois and much of the time I had to drive alone, often at night, as the job required shift work. This was hard on me as I had never driven much and I didn't like to drive. In September, 1968, Ike had another heart attack that laid him up for another two months and on April 29, 1970 he had another one which took his life. This was hard to take; my mother had passed away in February of that year, and I was only 45 years old, which is pretty young to be left a widow. Eldon got married that fall, and the girls and I moved to Lorenzo so I would be closer to my work.

After moving to Lorenzo, I continued working at the plant. Sometimes I rode with Harold and Mary Higley, a nice couple who also worked there. We became good friends. It was sad when Mary was killed in a car accident in September, 1972. Harold was in the hospital for a long time.

In February, 1973 Harold asked me if I would like to go to a dance with him, and we started seeing each other often. We got along good together and were married in July, 1973. We both continued working at Fresh Pak for five more years. These were choice years; we were on the same shift and worked together.

On July 20, 1978 a tree fell on Harold while we were getting out firewood. He got a bad back injury and was in the hospital for eight days and laid up all summer. He never did completely recover from it. He tried working some after that, but it was too hard on him so he retired at the age of 66. I have continued to work at the plant and at the end of this season will have finished my 18th year there.

Harold has been a good husband; we have much in common and there are many things we love to do together. We both love to dance and go to many dances at the Senior Citizen Centers. Our children are all married and are out on their own. Between the two of us we have 19 grandchildren.

*Gayle (Christensen) Hill*

The past "40" as we have seen them:

My family moved to Ogden, Utah in the spring of 1942, to go into defense work. I returned to Star Valley in the fall, to finish high school with my friends.

After graduation, I returned to Ogden and finally went into defense work as my family had done.

I married Lowell Hill and we raised four children, two boys and two girls. We have 11 grandchildren. Except for our oldest son (he and his family live in Fresno, Calif.), our children all live in the Ogden vicinity.

We enjoy our family and we have a good life together. Lowell and I enjoy many things together. We love to dance, golf and bowl.

In 1959 I returned to government service with the Internal Revenue Service. I supervised for over 20 years. While still young enough to enjoy life, I retired in July, 1982.

I'm very pleased the class of '43 is having this reunion and I hope to see a lot of my old friends.

*Vern W. Hillyard*

Vern graduated from Star Valley High School in May, 1943. He entered the Navy V-12 program July 1, 1943. While under this program he attended College of St. Thomas and then the University of Minnesota, St. Paul, where he graduated in February, 1946 with a degree in mechanical engineering. As an Ensign in the Naval Reserve he was then stationed on the cruiser, USS Cleveland, until he was discharged in June, 1946, after which time he returned to Star Valley.

He later obtained employment with Byron Jackson Oil Tool Mfg. in Los Angeles, Calif. and was transferred to Houston, Texas in May, 1948. In July, 1950 he met Phyllis Bane, who had just recently left the University of Virginia to work in Houston, and they were married in October of that same year.

Vern and Phyllis have three children: a son, Robert, 30, who still lives at home; a daughter, Jeannie, 26, married; a daughter, Tina, 21, married; and two grandsons.

They live in Houston, where Vern traveled to oil fields throughout the U.S., until 1969, when he left Byron Jackson after 21 years to re-establish himself and his family in Salt Lake City, Utah, and they have resided there for the past 13 years in the Holladay area.

Vern has been active in the L.D.S. Church, filling such positions as teacher, bishop's counselor, Sunday School superintendent twice, and also counselor in the Stake Sunday School; executive secretary, and has been active in the High Priest groups.

Phyllis has been a Sunday School teacher and coordinator of the ward and stake, Primary teacher and president of ward and stake, Mutual teacher and stake Beehive leader, Relief Society teacher and president's counselor. She also served two years as president of the *Promised Valley Playhouse* theater guild in Salt Lake City. They both enjoy the activity and arts in Salt Lake City, plus Vern's horses and snowmobiles and their membership in the East Canyon Resort, which provides 10,000 acres of outdoor living and some good family get-togetherness.

They still have family in Star Valley and visit there often, and are looking forward to renewing friendships with the class of '43.

### *Mary Irene (Tippetts) Hoopes*

I married Byron E. Hoopes Oct. 7, 1941 at Las Vegas, Nev. We were accompanied by Byron's cousin, Melvin Hoopes, to the west coast. Our marriage was solemnized in the Salt Lake Temple Sept. 11, 1942.

We are the parents of 10 choice spirits—five sons and five daughters: Errol, Mary Lou (Harmon), Laurel, Carolya Sue (Phillips), Sally (Matesen), Richard, Reynold, Randal, Melody (Harris), and Celeste. We have 16 grandchildren, 10 boys and 6 girls.

We spent the first six months of our married life in Long Beach, Calif. where Byron was working and I attended high school at Long Beach Poly Tech.

We were in California when Pearl Harbor was attacked Dec. 7, 1941. We witnessed several air raids on unidentified planes. The screaming sirens and the shooting were frightening. We lived through the blackouts and food and gasoline rationing.

Byron was being drafted into the military service during World War II, so we came back to Wyoming in April. He was later given a farm deferment to help work on his father's farm.

We have been farmers and ranchers all our lives. We own a 400-acre ranch and have Hereford cattle and Holstein dairy cows. We have lived through two creamery bankruptcies in 2½ years time just recently. This was a low blow to the Star Valley community and everyone involved.

We have taught our children the value of work and that they are here to make the world a better place because of them. Four of our five sons have served missions for the L.D.S. Church—Errol, East Central States; Laurel, Paris France; Richard, Michigan Lansing; and Reynold, Florida Tallahassee. Three of our daughters have married returned missionaries. Our youngest daughter, Celeste, just complete her sophomore year at Utah State University in Logan, Utah.

Errol is 20 years and three months older than Celeste, and she was 1½ years old before he saw her—when he came home from his mission.

Our second son, Laurel, works for Delta Airlines, and is able to get free passes for his parents once a year. Because of this we have been privileged to travel to a few interesting places, including the Hawaiian Islands in 1976, Disney World in Florida, and many times in Indianapolis, Ind. where our oldest daughter lives.

I could write a book about all the accomplishments and talents of our beautiful family, but for now this brief synopsis will do.

Byron is a licensed big game outfitter, and we have met many great people throughout the world. We are thankful for the blessings of life and for the health and strength that we enjoy.

We are planning on serving as a missionary couple in the near future. We will be celebrating our Golden Wedding Anniversary in eight short years—the good Lord willing.

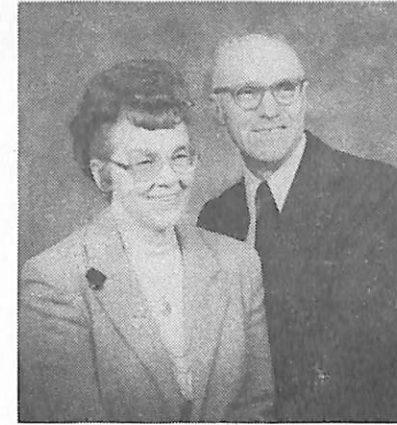

*Odell and Marjorie (Nield) Hunsaker*

After 40 years from graduation:

Roses are still red,  
 Violets are still blue,  
 We are still alive,  
 And hope you are, too!

We are still living in Star Valley and always have. We have five children, three boys and two girls, and 14 grandchildren. All are living here in Star Valley around us, which is great.

We lived on our ranch while we were raising our family. We are presently in the grocery business with two of our sons. We own and operate the Familee Thriftway at Afton.

*Wanda (Clark) Limb*

I left Star Valley at the semester break of our senior year in January, 1943 and regrettably didn't make it back for graduation exercises, though I was one of the graduates and got a scholarship to go to the University of Wyoming at Laramie.

Two or three of us thought it would be patriotic to get out of school since we already had enough credits to graduate and get involved in the war effort. So I went to Vallejo, Calif. and lived with my sister for a few months and worked for the Navy where I did office work, mostly typing. I went to school in Laramie the next winter, then back to California and worked for the Navy again until I married the sailor, Ellis Limb, whom I had met the previous year. We were married in the Salt Lake Temple on Feb. 14, 1945.

After the war we made our home in Salt Lake City where we had our first three children. Then in 1953 we moved to Emmett, Idaho where we have lived ever since. We had six more children, making six girls and three boys. We now have still living, four daughters and three sons. We have 22 grandchildren (one deceased), and are only getting a good start!

In the church I have held many positions in every auxiliary, plus genealogy teacher, and I taught early morning seminary for 12 years. Ellis has also held many positions, including ward clerk, bishop's counselor, and is now High Priest group leader. At present I teach the Gospel Doctrine class in Sunday School.

Careerwise, we raised a wonderful family who give us great happiness. I have done secretary work briefly two or three different times, and now I own and operate the Mode O'Day dress shop in Emmett. Ellis is retired from the Boise Cascade Lumber Mill, but keeps very busy around our five acres.

We love to visit good old STAR VALLEY!

*Erva (Olson) Miller*

I attended Star Valley High School my freshman and sophomore years, then moved to Ogden, Utah and graduated with 602 seniors in 1943. I worked three years in Ogden, then went to Idaho State University in Pocatello, Idaho.

I married Lloyd Miller from Idaho Falls in June, 1949. We have four sons (three are married), and four grandchildren, with one more due in June.

I received a B.A. degree from Idaho State University in 1964 and have taught school in Idaho Falls for 25 years. We love to travel. We've been to Europe twice, the Orient, and Hawaii twice. We're planning to return next Thanksgiving to Hawaii.

A family is lovely to have, but it's nice when they're married and on their own. It's heaven to come home to peace and quiet and a sweet, helpful husband after a hard day with the little darlings at school. I've taught 3rd, 4th, 5th and 6th grade during my career and I plan to give it up in one more year. I've had it!

*Dean Nield*

I married Virginia Schiess January, 1947 in the Idaho Falls L.D.S. Temple. We have four children, three boys and one girl, and 13 grandchildren.

We have lived in Kennewick, Wash. and The Dalles, Ore. for two years. We built the Phillips 66 service station north of Afton. We sold it to Lynn Nield, my brother.

We moved to California in 1960. I have worked for Sav On Drug stores for the past 23 years in Anaheim, Tustin, Garden Grove and now Rancho Bernardo.

We bought a home in Poway, on a hill, one year ago. We are enjoying this beautiful area. We have a large yard with a lot of fruit trees, flowers and a garden.

Virginia and I have been very busy over the years with work, family and church. We have both held many positions in several stakes and wards. Two sons and a son-in-law went on L.D.S. missions.

We have never missed a year coming back to Star Valley for a vacation. We visit family and friends, fish and camp. We've been on many pack trips. We've been very blessed in that each of our family enjoys good health, and we enjoy every day.

I married Virginia because she was the prettiest girl in Star Valley High. She turned out to be the best cook, seamstress, and homemaker in California. For these reasons I love her more every day.

### *Duane Lee Peterson*

I graduated from SVHS in 1943. I was married Feb. 14, 1944 to Dora Edlund. We have five children—two girls and three boys.

I worked for Marvin Sessions in Afton, and then for Reed Dayton in Cokeville until going into the service Nov. 27, 1944. I spent two years in the service, most of the time in the Pacific Theatre. I was in the Philippines and Japan (following the Japanese surrender).

After returning home I spent three years in Provo at the Utah Technical College, graduating with a degree in electricity and refrigeration.

After working in Delta, Utah for a year and a half, we moved to Clearfield, Utah where I went to work for the Clearfield Naval Supply Depot (10 years).

In September, 1958, I went to work for Litton Systems, Guidance and Control Division. For the past 18 years I have been in charge of the plant maintenance.

We have lived in Salt Lake City for the past 20 years. All of our children are married. We have 10 grandchildren.

My hobbies are hunting, fishing, skiing, oil painting, and photography.

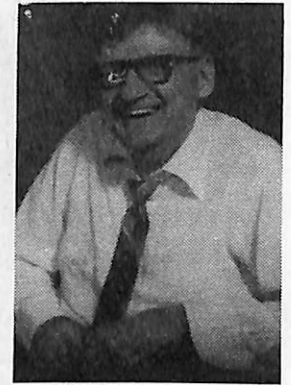

### *Darwin Petersen and Verna Petersen*

For 40 years, we have invested in six children, a house, several cars and a boat. Our six children, three boys, Terry Joe, Rex, Verden, and three girls, Dena Lee, Dixie and Connie, have been our investment, savings and retirement plans. The past 16 years we have drawing some interest on the investments—grandchildren. We have 12 now and we have, after 40 years, decided that our investments and savings plans have paid off very well. We are now looking forward to our retirement plans.

Darwin is retired and if you want to visit him, you will find him at East Canyon Resort anytime between May 1 and Nov. 1. By the time this reunion takes place, I will have 44 months left before I can retire.

I have a lot I want to be a part of before that time gets here. I have worked for the State of Utah for 17 years. At the present time, I work for the Division of Oil, Gas & Mining as a secretary. We have spent the past one and a half years developing a new program for this division. It is the Abandoned Mine Reclamation Program, and we are now ready to attack some of the state's most dangerous sites. We had to present the Federal Office of Surface Mining with a plan that they would approve. It is a very interesting program and as it progresses, it will become a very important program. Utah has a lot of big problem abandoned mine sites waiting for us.

Darwin and I live at 3387 South 8525 West, Magna, Utah 84044. Come and visit us; we'd love to have you. Write us a letter; we'd love to hear from you. Send a card; we'd love that too.

### *Dee G. Roberts*

To begin this story of the last 40 years of my life, I will begin with my entry into the United States Navy.

I entered the Navy Dec. 7, 1943 and served 16 weeks at Farragut, Idaho. Then I went to Durcell, Okla., and then to Midland, Tenn. for radio and radar training. Next I went to DeLand, Fla. for 1½ years. From Florida I went to Beaufort, Carolina in 1944, and was there when the war ended.

I spent some time in California after the war's ending when I was discharged in February, 1946. I returned home to Star Valley for a year at this time, after which I traveled to Salt Lake City, Utah where I entered the University of Utah in 1947 and graduated in 1951. During this time I was married in 1948 to Ruth Hitchcock from Ferron, Utah between quarters. After I graduated from the University of Utah I went to Huntington, Utah with my wife and daughter, Deena, who was born in December, 1948. I was principal of Etna Elementary School, after returning to my hometown in 1952, which was a highlight for me.

Then with my wife and three daughters, two of whom were born while in Etna (Pam and Charlotte), we returned to Salt Lake City in 1955. I taught in the SLC area until I became ill in 1962. My wife gave birth to our fourth daughter around this time, and we name her Lisa. Since that time I've been hospitalized and am now well enough to reside in a care center in Bountiful, Utah.

I'd love to see any of our class members who live nearby at the Bountiful Convalescent Center.

*Nola (Smith) Robinson*

Well, let's see, since school . . .

I have lived here in Star Valley all the time. I remained at home helping my father with the younger children for six years after graduation.

I married Elmo Robinson in 1949, and we lived at Fairview and operated a small grocery store; then we moved to Freedom in 1954 and both worked for Star Valley Swiss Cheese Company in Thayne.

We have five children. Kedrick, M.B.A. from University of Wyoming. He is married to Jeanne Poelma from Pine Bluffs, Wyo. They have two children, Kedria Briana and Keegan Shane. They are presently living in Laramie, Wyo.

Maury Guy Robinson, B.S. of University of Utah. He is married to Janene Jordan and they have three sons, Jordan, Guy, and Vincent. He works for the Quaker Oats Co. and lives at Salt Lake City, Utah.

Stacy, B.S. BYU and in a year will receive his D.D.S. from University of Pacifica in San Francisco, Calif. He is married to LaRae Eatough from San Luis Obispo, Calif. No grandchildren; too much studying of the teeth, so far.

Karl is a pre-med student at University of Wyoming and married to Julie Lashwood of Woolsey, S.D.

Kami is our only daughter. She and Karl are twins. She has a R.N. degree from Ricks College, a B.S. degree from BYU in community health education, and is planning on a master's degree in her field.

I have worked for Star Valley Swiss Cheese Company (seemingly forever). I manage the salesroom and cafe. I quite enjoy the work because of being able to see old friends and acquaintances when they come for cheese.

I have served on the Star Valley Hospital board for nine years. During this time our new hospital has been built; a source of pride for all of us in Star Valley.

The church has been important in our lives. We've held the usual number of positions, and three of our sons have been on missions.

We have especially enjoyed the participation of our children in school and work activities; and pray for health, wealth and happiness to enjoy our children, grandchildren, and another 40 years with you all.

*Nola's Address - Box 173, Freedom, Wyo. 83120*

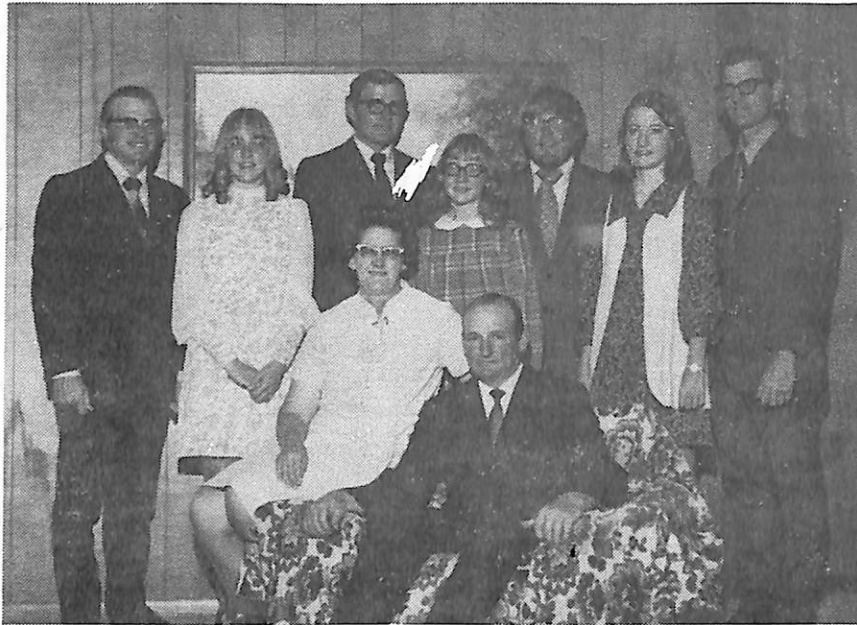

*Adell (Anderson) Sanderson*

Archie and I just celebrated our 40th wedding anniversary. These years have been good ones. We have been blessed with five children, three daughters and two sons, all married and with families. We have 13 grandchildren

Besides being a homemaker and mother, I worked 10 years at the Star Valley Swiss Cheese Co. in Thayne and 10 years as maid supervisor at the Flying Saddle Best Western Lodge at Alpine. I have been active in the church. I served on the Star Valley Stake Primary board, and in the Etna Ward I have been Primary president, MIA president, Sunday School coordinator, Relief Society president, and ward sports director. At the present time I am second counselor in Relief Society and play on our ladies volleyball team.

*Adell's Address - Etna, Wyo. 83118*

*Dorothy (Alleman) Skinner*

Born and raised in Star Valley. Married Floyd F. Skinner Nov. 12, 1943 in the Salt Lake L.D.S. Temple. Since then we have lived 36 years in Star Valley and three years in Idaho Falls, Idaho.

We have raised four sons and three daughters. Two of our sons served on missions for the L.D.S. Church. Two sons and three daughters attended college. One son served his country in Vietnam. All seven of our children are married. We have 26 grandchildren. Our oldest son Gary died at the age of 23 from melanoma cancer, leaving a wife and four small children. His son, our oldest grandchild, is now serving in the Arizona Navajo Mission.

I have traveled, with my husband, in 18 states, plus Canada.

During the past 39 years my time has been divided between my family, home and church. I have had no desire to be a career woman, and have not needed to work away from home.

I enjoy gardening, flowers, crocheting, quilting, oil painting, camping, genealogy, family reunions, traveling with my husband, and we especially enjoy having our grandchildren and children around as often as they can be.

Since my marriage I have been actively involved in the L.D.S. Church. At present, I am serving as Relief Society president of the Bedford Ward.

The past 39 years have been good years.

*Dorothy's Address - Box 166, Bedford, Wyo. 83112*

*Vivian (Taucher) Taggart*

After graduation I followed my husband, Spencer, around the Air Force bases. When World War II was over, we settled in Smoot, Wyo. We raised three children in Smoot. Our daughter, Tama, is in Fairbanks, Alaska. Marty is in Overton, Nev. coaching and teaching. Spencer Dean died in Fort Lewis, Wash. of meningitis in 1971. Spencer died in 1975 in an accident.

I spend my winters in Nevada with my son Marty. I'm proud of him. He was voted coach of the year in the state of Nevada in 1977 and 1982.

Tama loves Alaska. When I visit up there, I truly find it to be the last frontier. I have seven grandchildren whom I love dearly.

I enjoy my summers in Star Valley, and it will always be home.

*Vivian's Address - Box 14, Smoot, Wyo. 83126*

*Opal (Eggleston) Taylor*

In June, 1943, after graduation, I went to Cheyenne, Wyo. to live with my sister and brother-in-law. I acquired a job at Safeway, working as a checker and later became manager of the produce department. On Feb. 25, 1947 I was married to Lester K. Taylor at the L.D.S. Church in Cheyenne. He had just returned from the Navy a few months earlier, after serving in the Philippine Islands. He was working as a check clerk for the U.P.R.R. On April 17, 1948 our first son was born. He was named after his father. In September, 1949 he was joined by Douglas R. The closeness of the ages made them almost like twins in their growing up years.

The railroad transferred us to North Platte, Neb. Nov. 29, 1949. Les worked as foreman at the then newly built freight house, and I tended our boys. In April, 1951 we bought a lot with a small house on it, and in October Katherine M. was born. In November, 1954 we had another girl, Barbara J.

In May, 1954 we started building us a new home. It was quite a challenge, and as it was the hottest summer on record we labored long, hot hours. We moved in on Jan. 1, 1955.

As the children grew I went back to work for Safeway and then worked for 11 years with the school system. I have been an active member of the L.D.S. Church all my life and held many different positions from time to time. Currently I am the branch librarian. Les transferred to the yard office and worked as the supervisor on his shift.

Our children all grew up and married. Kathy married Ronald L. Stoddard in December, 1968. On March 19, 1970 she lost her first baby boy at birth and in March, 1975 she lost her 3½-year-old daughter after open heart surgery. She now has four other children. They live on an acreage in Hershey, Neb. and Ron is a brakeman for the U.P.R.R.

Lester K. Jr. went to Vietnam a few days after his marriage to Patricia Welke in July of 1969. He was injured in February and died of his wounds on March 17, 1970. He is interred at the Fort McPherson National Cemetery near Maxwell, Neb.

Doug married Teresa Cain in June, 1971. He and Teri have two boys, Cory and John, and a girl, Heidi. He works as a conductor for the U.P.R.R. and they live in Cheyenne, Wyo.

In August, 1975 Barb married Thomas McCauley and as he was serving in the Navy they moved around a lot. Amy was born in Norfolk, Va., Nathan in Lincoln, Neb., where they had moved after the Navy, and Ashton was born in Bismarck, N.D. They now live in Binghamton, N.Y.

We've had many family vacations and have done a lot of traveling. We manage to come back to Star Valley each year to my family reunion and sometimes oftener. We are looking forward to retirement in a few years and are hoping to be able to travel. We like to camp, fish, dance and spend time with our friends.

*Cora (Osmond) Thinnes*

Life has been very good to me—most of the time!

I was married May 15, 1943, one week after graduation, to Harold Womack. Nine years and four children later I was divorced. I then married Del Thinnes. Now after 30 years, five more children and 22 grandchildren, I am convinced it was a very wise choice. Del and I have also been foster parents to 44 children.

We've had some experiences we would have gladly side-stepped if possible. The worst of these was the death of our oldest son, Clare, who was killed six years ago in a truck accident. One thing I'm sure of—the good times in my life have far out-weighed the bad times.

I am a member of Toastmasters International, and I have won 10 trophies for speaking in competition with people from all walks of life and all over the world. That is one of my most exciting hobbies. I also do some writing, but I've never had the courage to try to have anything published.

I recently retired from IRS and Del retired from the Postal Service. Now we have at least 25 years of play-time planned—be the good Lord willing.

Del and I are both active in the L.D.S. Church and we have several projects that should take up some of our time, too.

I have managed to keep my sense of humor, and my deep love for people. Although I would naturally change some things, I can still say life in general is very good, and I am a mighty happy person.

*Dallas Tolman*

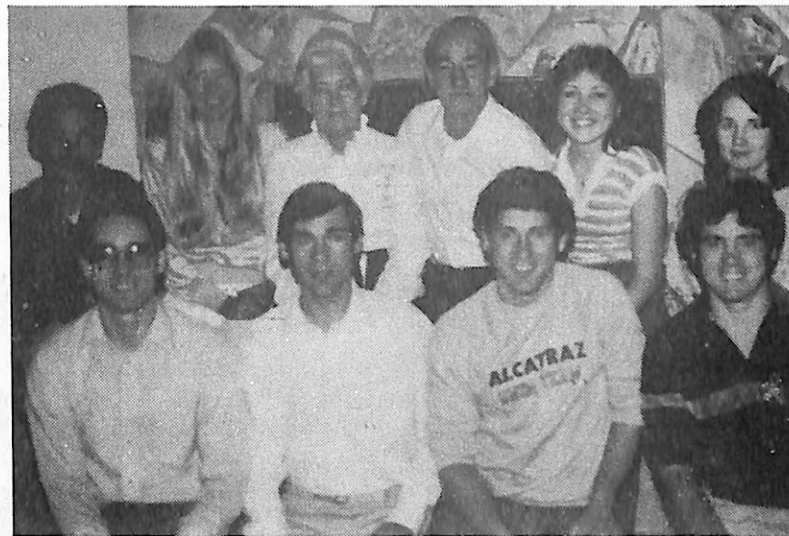

After the first semester of my senior year I had enough credit for graduation, so I left school to go into the armed service. My physical exam revealed that I had a heart condition which prevented my induction.

On Aug. 10, 1948 I married Laura Dean Taylor in the Logan Temple.

For 10 years I worked as dairy herd improvement supervisor in Star Valley. After helping my father some on the ranch, I purchased the property on Spring Creek in Fairview. At present I own and operate a 50-cow grade A dairy.

I have served in the L.D.S. Church as YMMIA president and counselor, ward clerk for 11 years, bishop of the Fairview Ward for five years, and at present I am serving on the high council of the Afton Wyoming Stake.

We have seven children, six of whom are married, with one daughter living at home. We also have 17 grandchildren living, and one expired.

*Fern (Cazier) Turner*

Immediately after graduation from high school I left for sunny California to seek my fortune. Except for about two years I have lived the last 40 years in that state. As much as we still love Star Valley, we have never regretted having spent most of our lives in California, and plan to spend the rest of our lives here.

I worked from 1943 until I was married in 1946. I have had some very interesting positions and traveled to several states during this time period. I have been a welder in the shipyards, a telegrapher for the Southern Pacific Railroad, a secretary for E.I. Dupont Co., where I was transferred from Hanford, Wash. to Louisville, Ky.

After World War II, I married Duane Turner from Fairview, Wyo. We were married in Oakland, Calif. on Jan. 18, 1946. On June 18, 1956 we were sealed in the Salt Lake Temple. I have been fortunate to have had a wonderful companion for 37 years.

Our first child was born April 3, 1948. We have been blessed with eight children, five boys and three girls, plus we have had the privilege of raising our oldest grandson, who has been like another son to us. So we have raised nine children. Their names are Gil, Trudy, Scott, Duane, Todd, Dale, Tami, Kevin and our grandson Damon.

From 1948 to 1979 I spent most of my time with my husband and children and working in the church. Some of the positions I have held in the church are Relief Society president, secretary, homemaking counselor, and Sunday School teacher. Most of our children are very active in the church. Three of our boys have served full time missions, five of our children have been married in the temple, and one son is presently serving as bishop of his ward. We have 16 grandchildren.

At the present time we are living in Lake of the Pines. This is in the Sierra Foothills between Auburn and Grass Valley, Calif. It is a private Country Club; we have a nice home on the lakefront. I enjoy water skiing golfing, sewing, stain glass and any type of craft. Four years ago I qualified for a real estate license, and at the present I am enjoying selling homes and property in Lake of the Pines. Duane and I hope to retire within two years so that we may enjoy our hobbies and visit our children and grandchildren.

*Bruce Walton*

After high school I worked for my father for a year or two. In the meantime I married Leota Hopkin, whom I had been going with for about four years. We made our first home north of Afton for about 10 years, working at different places, and milking a few cows.

I finally decided I wanted to be a farmer. We tried to buy several places in Star Valley, with no success. We took a trip and came to Emmett, Idaho and found a place on June 9, 1956. Leota and I left Star Valley, taking with us all of our earthly possessions, which consisted of four boys and one girl, 13 milk cows, some machinery, furniture, one horse and \$7,000 and a dream and determination to be a farmer.

We bought 83 acres and settled down and decided if we couldn't make it dairying and farming I would go back and work for wages, but I wasn't going to do both. I haven't worked for wages yet.

We have had all the normal things that happen in most families, and some that don't—car accidents, heart attacks, serious illnesses and paralysis—and have survived and have really been blessed.

We had two more daughters born to us in Emmett. Meri Lou, the youngest, is now serving on an L.D.S. mission in Washington, D.C. Vickie Ann, who served a mission in Germany, is now married and living in Boise, Idaho.

Jerry, our oldest son, lives in Pocatello where he owns his own business. Our second son Danny is living in Kemmerer, Wyo. He served in the Southern California Mission. Our oldest daughter, Connie, lives here in Emmett, and her husband works for Boise Cascade. Our third son, Brad, lives with us; he was born with down-syndrome. Tracy, our youngest son, is farming here by us. We have 17 grandchildren, 13 girls and 4 boys. We don't know the sex of the one due July 4.

We are active in church work. I am the High Priest secretary and Leota is secretary for the Relief Society. Before this we both worked in the Stake Sunday School. Most of our children are active members.

We sold the dairy that we built up about five years ago, and we're now living on a place we bought nine years ago. We have done quite well in the farming business, thanks to our folks for teaching us to work, and a wife and family who supported me, and the blessings our ever-caring Father in Heaven.

*Bruce's Address - 6600 Hellview Road, Emmett, Idaho 83617*

*Rhea (Linford) Weber*

What a great ideal! It will be so good to see how everyone has changed, except of course, me.

After graduating from high school I left Star Valley for the "big" world outside. I ended up in Salt Lake City and worked as a secretary at Kearns Air Force Base, Kearns, Utah for about two years.

I then decided to attend Utah State University, and after completing three quarters started working at Mountain Bell in Logan, Utah as a telephone operator.

At this time I met my husband, Royle W. Weber. We were married in the Logan Temple on April 10, 1947. We had purchased a farm in Ashton, Idaho and lived there about nine years. We moved to Layton, Utah in November, 1956. Royle had obtained a job at Hill Air Force Base.

We are the parents of four children, three sons and a daughter. Our oldest son has never married and is living in Provo, Utah. Our two married sons graduated from the University of Utah with engineering degrees. One is living

in Dallas and the other in Houston, Texas. Our only daughter graduated from Weber State in Ogden and is working at the LDS Hospital in Salt Lake City as a respiratory therapist. She is married and living in Bountiful. Our five grandchildren are all in Texas.

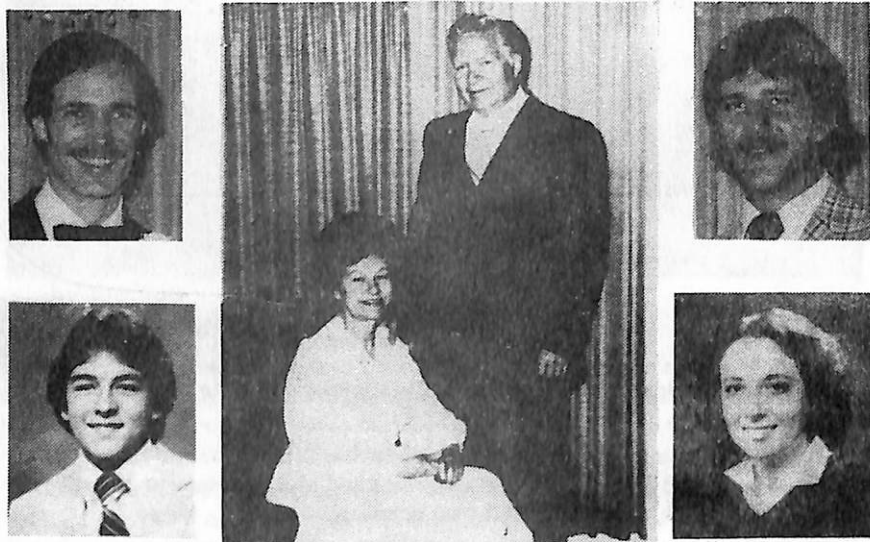

During this time I have been employed at IRS in Ogden, and also worked for some time at Hill Air Force Base. I retired about five years ago. After some time I found I had too much time on my hands, so I'm now working part time at Humana Davis North Hospital in Layton as a medical transcriber.

I have always enjoyed working in all auxiliaries in the church, as well as being active in Cub Scouting and PTA activities when my children were at home. My husband is now retired, and we have had the opportunity of doing quite a bit of traveling and have enjoyed it very much.

I have decided that no matter where you go, there is still no place more beautiful than good old "Star Valley."

My life has been, and still is, very full, and I am very thankful for the good health and strength I now enjoy.

*Rhea's Address - 387 Owen St., Layton, Utah 84041*

*Donna (Papworth) Wheeler*

After graduating from high school in 1943 Donna worked in the valley at the Edlund Market and Roberts Market until the war ended. After World War II was over Donna married Rodney Wheeler March 11, 1946. At this time they purchased a farm south of Afton. They built a house, which was home for 24 years. Their family was raised in this home while Rodney, along with farming, was a carpenter, and a technician for artificial breeding of dairy cattle. Also during this time Rodney served in two bishoprics while Donna was a wife, mother, and also worked part time at the Star Valley Drug.

Rodney and Donna have four children, three boys and one girl. They are special. Gary and Angelicque live in Salt Lake City. Gary is a psychiatric technician at the L.D.S. Hospital. Royle and Ruth Anne live in Logan. Royle is a welder and is employed at Weather Shield. Holly and David are in Logan. Holly is employed at Hardee's and David is a butcher at E.A. Miller. Joel is 19½; he is with them at home, but is really kept busy. He is a freshman at Utah State University and is also a manager at McDonald's. Rodney and Donna are happy to have him still at home. Keeps them young.

In 1970 Rodney and Donna moved to Logan. Rodney is head maintenance man at the U.S.U. First Stake on campus. Donna works for him and proclaims him an excellent boss. Donna plays in the Cache Community Band. The first trumpet player is none other than Elden Torbensen, her old band teacher at Star Valley High 40 years ago. Forty years of happiness and a few tears, working, raising a family, loving them and their 3½ grandchildren, being called grandpa and grandma—it's really great.

The Wheelers have beautiful memories of Star Valley, and they will always be special, but they are happy in Logan with family close by to spice up their life and drop by to say Hi! They are active in the Logan 7th Ward, with access to the temple. They extend an invitation to anyone to drop by and see them at 482 East Center.

In closing they would like to say: "Isn't it great that our memories can be June roses in the December of our lives."

### *LaRue (Merritt) Wood*

It seems impossible that it has been 40 whole years since high school graduation. Quite a milestone! But then I will have been married 40 whole years in October, 1983. Another milestone.

I married Denzel Wood from Auburn, Wyo. We made our home there for 18 years on a farm. We then moved to Logan, Utah and have resided there for 22 years. We always speak of Star Valley as "home." We love Star Valley and we love Logan. We enjoy living there.

We have had five children. One little daughter passed away at the age of three years. Three of our children live in Logan and one in Sandy, Utah. All are married and we have a close family relationship. We have nine grandchildren, with more to come (I hope).

I don't feel that I have done anything really spectacular in my life except trying to be a good wife and mother. I have a good husband, good children and a lovely home. I feel that I have had a good and rewarding life. I have been active in my church and have tried to live and practice the Golden Rule.

It is nice now to take life one day at a time at a little easier pace and do some of the things you like to do and taking a little more time in doing them. I guess that is what comes with growing older. It will be nice to see old—or should I say older—classmates again. So . . . so be it for another 40 years.

*Marie (Papworth) Wright*

After graduation I went to Salt Lake City to Western Union Teletype School and was transferred to San Diego, Calif. After schooling I worked in San Diego for two years, then came back in 1945 and got married to Robert Glen Wright.

I have two children, a boy, Joel, and a daughter, Vicky Wright Clayton. I also have three grandchildren.

We lived in Thayne, Wyo. and Glen hauled coal for the cheese factories in 1952. Ralph Coy and Glen bought Salmon Short Lines Bus Company, and we moved to Idaho Falls and purchased the Star Valley Jackson Stages, which we owned until 1977, when we sold our business. We had a bus we kept and built it into a motor home and did some traveling. We spent the last three winters in Arizona.

I kept the books for our bus business. I now do volunteer work at the Idaho Falls Consolidated Hospital.

In January of 1983 Glen and I were divorced.

*Marie's Address - 1945 Eagle Drive, Idaho Falls, Idaho 83401*
